

MSc Accounting and Financial Management

Module running schedule

Order to take the modules

You should register for the following modules in the first two sessions of your programme:

Code	Module
AFM010	Financial Accounting Frameworks (FAF)
AFM020	Management Accounting Frameworks (MAF)
AFM030	Financial Management Essentials (FME)

You should then register for:

Code	Module
AFM040	Advanced Financial Analysis (AFA)
AFM050	Advanced Management Accounting (AMA)

Then register for the remaining modules and the Capstone Project. You must have passed 60 credits before you register for the Capstone Project.

Please note: you may not perform to the best of your ability if you do not register for the modules in the order prescribed here. Modules AFM010 to AFM050 provide a foundation of learning to build on in the later modules. If you study the modules in a different order or plan to take longer than two years to complete, you can use the table below to plan for a self-paced study journey through the programme.
